Jafra is participating with Finding Refuge in fund raising campaign. Finding Refugees is a foundation that seeks to find houses for immigrants, refugees and asylum seekers in Athens.

The campaign aims to tackle the problems concerning housing and offer education to refugees since they have no access to education due to the reduction of Europe Union and UNHCR's budget allocated to the refugees.

We, in Jafra are trying to put an end to this vicious cycle of excluding the refugees. We are aiming instead to empower the refugees to stand independently and contribute fully in the host community.
